AMIRA ADEL OBEID

Data Analyst

Alexandria, Egypt | +2001226300187 |

amiraadel@alexu.edu.eg | www.linkedin.com/in/amira-adel-nanodata

PROFESSIONAL SUMMARY

Detail-oriented and analytical Junior Data Analyst with hands-on expertise in data cleaning, exploratory data analysis (EDA), and business intelligence. Proficient in extracting, transforming, and visualizing data using Python (Pandas, NumPy, Matplotlib, Seaborn), SQL Server, Excel, and Power BI. Backed by intensive training through the Digital Egypt Pioneers Initiative (DEPI), an advanced academic background in Materials Science, and real-world project experience in healthcare analytics and demographic data management. Eager to contribute strong analytical skills and a data-driven mindset to a dynamic organization.

TECHNICAL & SOFT SKILLS

- Programming & Libraries: Python (Pandas, NumPy, Matplotlib, Seaborn)
- Databases & Querying: SQL, SQL Server Management Studio (SSMS), T-SQL, Joins, Aggregations, Data Cleaning
- Data Visualization & BI: Power BI, Microsoft Excel (Pivot Tables, DAX Measures, Slicers, Interactive Dashboards)
- Soft and Core Competencies: Exploratory Data Analysis (EDA), Statistical Analysis, Data Wrangling, Business Reporting, Problem Solving.

PROJECTS

Diabetes Risk Analysis | Python (Pandas, NumPy, Matplotlib, Seaborn)

- Developed an end-to-end data analysis pipeline to examine health indicators and evaluate diabetes risk factors.
- Performed thorough data cleaning, handling missing values, and outlier detection using Pandas and NumPy.
- Generated insightful visualizations and correlation plots using Matplotlib and Seaborn to communicate key health risk trends clearly.
- **Key Insight:** Identified Glucose levels and BMI as the strongest correlation factors with diabetes risk, revealing that elevated glucose levels (>140 mg/dL) combined with high BMI (>30) significantly increased risk probability, providing a data-backed basis for targeted health screening.

Population Clean Dashboard for Refugee Camps | SQL & Microsoft Excel

- Built a centralized data-cleaning and monitoring dashboard to process and organize complex demographic and camp population datasets.
- Wrote optimized SQL queries for data aggregation, filtering, and multi-table matching to ensure data integrity.
- Designed interactive Excel dashboards leveraging Pivot Tables, advanced formulas, and Slicers to track camp population metrics and resource distribution.
- **Key Insight:** Consolidated and validated complex demographic datasets, enabling precise tracking of population metrics and highlighting resource distribution gaps across high-density sectors.

DEPI Analytics Tasks & Capstone Projects | Python, SQL, Power BI & Excel

- Completed multiple practical tasks and modules focusing on real-world business scenarios, data wrangling, and metric tracking.
- Designed automated data processing workflows and built dynamic Power BI and Excel dashboards to support data-driven decision-making.
- **Key Insight:** Transformed raw operational and sales data into interactive dashboards, defining core KPIs that improved overall decision-making clarity and streamlined periodic performance tracking.

EDUCATION & TRAINING

Digital Egypt Pioneers Initiative (DEPI) | Professional Data Analytics Trainee
July 2026 – Present

- Intensive professional training program focused on the full data analytics lifecycle, covering Python, SQL, Advanced Excel, Power BI, and data-driven problem solving.

Master of Science in Materials Science | Institute of Graduate Studies and Research, Alexandria University
2023 – 2026

- Developed advanced analytical thinking, quantitative research methodologies, and complex problem-solving capabilities through rigorous scientific research.

CERTIFICATIONS

- Data Fundamentals – BMI (August 2026)
- AI For You: Training and Assessment – Oracle (August 2026)
- Programming Using Python – Institute of Graduate Studies and Research (IGSR), Alexandria University (December 2024)
- FDTC Training Programs – Alexandria University (February 2024)

LANGUAGES

- Arabic: Native
- English: Professional Working Proficiency
